

# Legislation Summary

Senate Bill 160 is an innovative, market based solution to the national health care crisis in Alaska. It is not socialized medicine. By maximizing consumer choice and creating a health insurance clearinghouse, this legislation guarantees affordable quality health coverage for all legal Alaskan residents.

Many working Alaskans cannot acquire insurance because the cost of coverage places a plan out of reach. While all Alaskans have legal ‘access’ to insurance products, those who cannot afford the full cost must hedge their bets on good health. Alaska’s unique economy adds additional challenges: seasonal employees, for instance, find themselves outside the traditional ‘group’ market, lacking an easy route to maintain continuous, portable coverage. And with the amount of uncompensated care rising, the pressure on individuals and businesses who do buy coverage will only increase, because unpaid hospital bills are essentially transferred to those who pay for services. SB 160 will reduce uncompensated care and ensure that all Alaskans have meaningful access to health coverage, regardless of job type.

The solution requires that all Alaskans participate. While individuals will have the responsibility to acquire coverage under the bill, the state will guarantee that a quality insurance product will be affordable. Sliding scale vouchers will assist Alaskans that cannot afford the full price of coverage on their own. The bill allows for unique plans that cater specifically to young Alaskans. This legislation does not assume that a one size fits all solution will work for Alaska.

The health care ‘clearinghouse’ will give participating Alaskans choices when it comes to health coverage, in a competitive marketplace framework. It allows for unsatisfied consumers to change insurers or plans without a loss of benefits, and provides a private market solution to rising costs. By placing the consumer in control and providing information about comparable products, the clearinghouse should reduce cost increases while increasing customer satisfaction.

In short, this legislation will ensure that all Alaskans have access to health care in times of great need, through an equitably financed system.
